The double telescopic swivel arms convince with an **unconventional lifting area**, especially suited for utility vehicles and large passenger cars.

The **internal arm locking system** installed as standard reliably protects against external influences.

The **strong 213 mm diameter cylinders** are also designed for long-lasting functionality and further round off the high quality level which ensures **low maintenance requirements**.  
Even in the event of a power blackout the lift can still be lowered without any problems thanks to the pneumatic emergency lowering system.

The Biglift 2.55 Saa 230 is perfectly completed by a **control system that is both visually and technically convincing**.

**Standard colour:**  
RAL 7012
