

Masterlift 2.35 NxT Saav & NxT TR Saav

Electro-hydraulic twin-ram lift, 3.5 t with adjustable swivel arms

NxT Generation - Inground lifts

NxT Generation

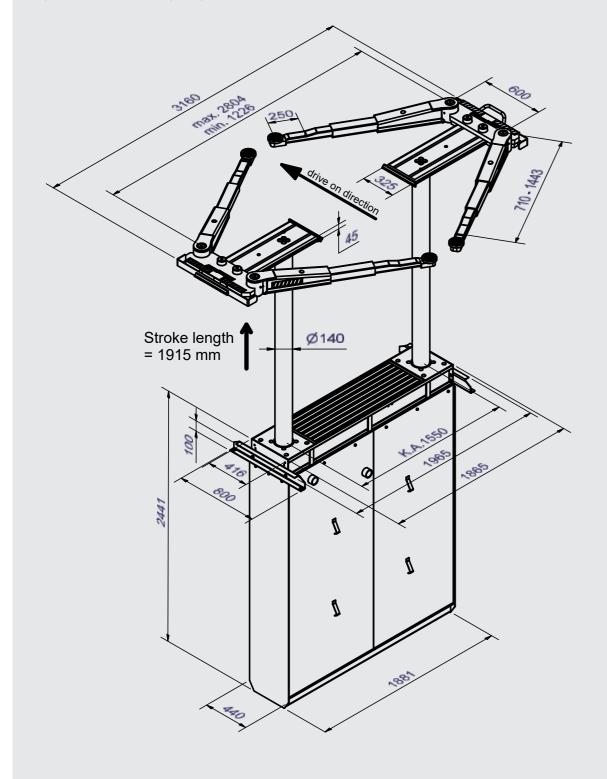

Masterlift 2.35 NxT Saav VAN

Electro-hydraulic twin-ram lift, 3.5 t with adjustable swivel arms

Synchronisation and safety via synchronisation bar

Masterlift 2.35 NxT Saav VAN

Technical data

Lifting capacity	3500 kg
Stroke length	1915 mm
Working height	Sport: 1993 - 2025 mm Universal: 2010 - 2089 mm
Cylinder diameter	2 x 140 mm
Cylinder distance	1550 mm
Lifting / lowering time	~ 30 sec.
Foundation depth	2640 mm
Pump unit	3.0 kW
Hydraulic fluid	10
Voltage	230/400 V / 50 Hz / 16 A

Arm superstructure

Total width	3160 mm
Lifting pad included in the delivery	Uni: 16007 95 - 174 mm Sport: 16006 78 - 110 mm
Min. height	Uni: 95 - 174 mm Sport: 78 - 110 mm + 50 mm height extension
Arm length, min max.	710 - 1443 mm
Arm insertion height	55 mm

Standard colour:

- Chassis: RAL 7016
- Arms: RAL 3020 optionally with KTL coating

Optional extras:

- Wide range of extra pads, depending on vehicle type
- Wheel support devices
- Active cassette ventilation
- Moisture monitoring in the steel cassette
- Special colours

Variants:

- Self-supporting design, without load on the bottom of the cassette
- Floor-standing design

Installation variants:

- On-floor installation
- Ceiling installation

Frame:

• Standard: completely hot-dip galvanized

Sub-casing:

- Standard: painted
- Optional: hot-dip galvanized or plastic-coated

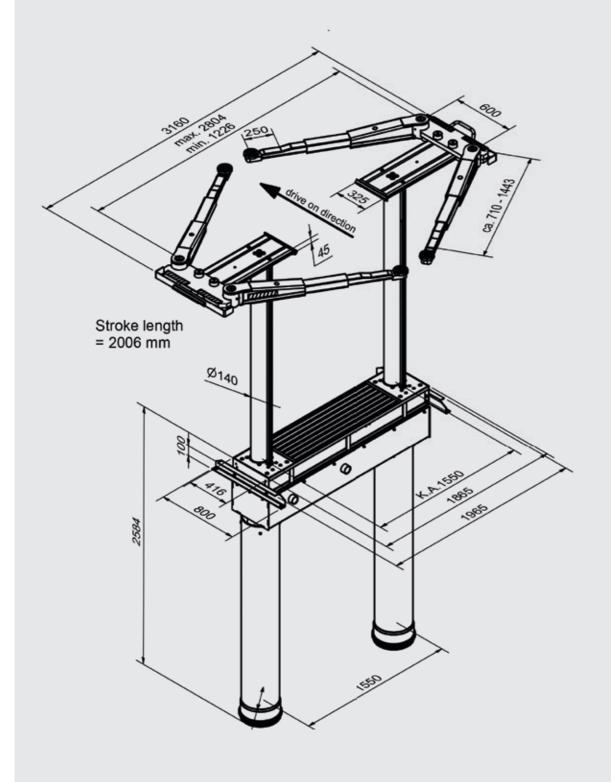

Masterlift 2.35 NxT TR Saav VAN

Electro-hydraulic twin-ram lift, 3.5 t with adjustable swivel arms

Synchronisation and safety via toothed rack and cardan shaft

Masterlift 2.35 NxT TR Saav VAN

Sport: 78 - 110 mm + 50 mm height extension

Sport: 16006 | 78 - 110 mm

Technical data

Lifting capacity	3500 kg
Stroke length	2006 mm
Working height	Sport: 2084 - 2116 mm Universal: 2101 - 2180 mm
Cylinder diameter	2 x 140 mm
Cylinder distance	1550 mm
Lifting / lowering time	~ 30 sec.
Foundation depth	800 mm
Pump unit	3.0 kW
Hydraulic fluid	10
Voltage	230/400 V / 50 Hz / 16 A

Optional extras:

Standard colour:

• Chassis: RAL 7016

• Wide range of extra pads, depending on vehicle type

• Arms: RAL 3020 - optionally with KTL coating

- Wheel support devices
- Special colours

Standard:

• Basically self-supporting design

Installation variants:

Arm superstructure

Lifting pad included in the

Arm length, min. - max.

Arm insertion height

Total width

delivery

Min. height

- On-floor installation
- Ceiling installation

Frame:

- Standard: completely hot-dip galvanized
- Incl. primed tube connection frame

And even more highlights: Inground technology reinvented!

With the **NxT Generation** inground lifts from AUTOPSTENHOJ you experience quality at the very highest level! We have made the best even better for you!

NxT Generation inground lifts: Flexible in installation and operation, also adaptable to possible, changing requirements in the future, due to our smart clamping system.

Synchronisation takes place either via a synchronisation bar or alternatively via a toothed rack. We achieve maximum stability through strong 140 mm cylinders and through our new aluminium guidance made of anodised solid material. With the new cassette cover, even strong forces acting on the cover during battery removal, for example, are safely absorbed.

The complete, sophisticated system gets by with only 10 litres of hydraulic fluid, thanks to proven high-pressure technology. Those who have the environment in mind should not disregard this fact.

The **NxT Generation inground lift** is suitable for all installation variants and thus, of course, also for self-supporting installation. The **NxT Generation inground lifts** are also always a good choice for replacement campaigns or retrofitting in third-party cassettes.

NxT Generation: Patented, flexible, modular
